

Subject: Request to attend (ISC)² Virtual Security Congress 2020

Dear [decisionmakersname],

As a security professional dedicated to remaining current on the latest industry threats and best practices, please consider my proposal to participate in the virtual (ISC)² Security Congress 2020 taking place November 16-18, 2020.

This event offers attendees three full days of educational opportunities covering many critical information security issues and emerging concepts, such as cloud security, governance, regulation and compliance, threats, incident response and forensics, professional development, and application security.

I consider my attendance would benefit both the organization and my professional development. By participating in the conference, I will receive:

- **A variety of information security education sessions and additional pre-conference sessions.** The flexibility of a virtual conference will enable cybersecurity professionals to access world-class expertise shared through upwards of 40 sessions by presenters from around the globe. Professional development sessions will provide actionable insights into a wide array of both technical and soft skills topics including Cloud Security, DevSecOps, Governance, Risk and Compliance (GRC), Career Development, Privacy, workforce challenges and more. Plus, pre-conference learning opportunities are available for intensive education courses.
- **Access to key vendors.** I'll have access to leading technology and security organizations.
- **Opportunities for high-level networking.** Through comprehensive networking lounges, I'll have access to enhancing our company's profile and further develop our relationships and contacts. Furthermore, virtual networking offers the opportunity to meet security professionals throughout multiple disciplines from around the world.
- **As an (ISC)² member, I'm also offered a significant discount** off the Member All Access Pass registration. If I register **prior to September 30**, I will receive an additional reduction for the All Access Pass fee for a total savings of \$100 USD.
- **Continuing Professional Education (CPE) credits.** As an (ISC)² member, continuing education is an annual requirement to maintain my (ISC)² credential(s). 2020 (ISC)² Virtual Security Congress presents an opportunity for me to earn up to 45 CPEs.

The approximate cost for my attendance: (USD)

All Access Pass (3 days)	\$ 395.00 (\$295 with Early Bird Pricing before September 30)
<hr/> Total cost to attend:	<hr/> \$ 395.00

I will submit a list of key topics learned and subsequent action plan when the conference is completed. I will also provide a review of the event to assist in your decision on any future attendance by colleagues.

Thank you for your consideration. I am excited to discuss this opportunity further. I look forward to your reply.

Sincerely,
[Name]
